Re: In re: Application of Quintillion Subsea Operations, LLC for a License to Construct, Land and Operate a Private Fiber Optic Cable System Linking Points Within Alaska, and Request for Streamlined Treatment; SCL-LIC-20160325-00009 – **Third Supplement to Application**

Dear Ms. Dortch:

On March 25, 2016 Quintillion Subsea Operations, LLC (“Quintillion Subsea Operations” or the “Company”), by its attorneys, submitted an Application for a License to Construct, Land and Operate a Private Fiber Optic Cable System Linking Points Within Alaska, and Request for Streamlined Treatment (the “Application”) to the Federal Communications Commission (“Commission”).

In response to an inquiry from the International Bureau staff, Quintillion hereby provides additional information regarding the leases and collocation agreements (collectively, “leases”) associated with Quintillion's cable landing stations at the six landing sites of the proposed system, as described in Quintillion's Application and April 8, 2016, supplement. At each landing site, the Company has a twenty-year or twenty-five year initial lease term. At the Company's option, it can extend each lease upon notice to the lessor for an additional five (5) years and otherwise on the same terms and conditions. The Company has the option to renew such extensions three times for an additional five years each time after the first extension, for a potential forty-year or forty-five year term at each station site. In short, Quintillion hereby

confirms it will have the right to access and control, as a lessee, the landing sites and landing stations throughout the entire 25-year submarine cable license period.

Please direct any questions regarding this submission to the undersigned.

Respectfully Submitted,
